

Meritor Part

Meritor Parts - The Meritor Business is a premier international supplier established upon one hundred years of custom of service and quality. Meritor specializes in integrated systems together with several modules and parts to the original equipment makers and aftermarket equipment within the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage in the worldwide operations. The business values all their clients and wants to ensure their success while anticipating their different requirements. Meritor begins with a philosophy which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor encourages collaboration and innovation amongst a team of experienced experts.

By only hiring future focused people, Meritor strongly believes these top-caliber workers would be able to rapidly get used to to changing surroundings and demonstrate the commitment and performance needed in order to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides their workers various chances for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, suspension and braking systems meant for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of their worldwide engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group who is devoted to ensuring optimum development at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 countries.

They have their supplier network which is specifically situated to support the development of the business. Every regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every part of the company. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean methods.
