

Rockwell Parts

Rockwell Parts - AxleTech International is a premier supplier in the world of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its customers' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for delivery, quality, service and technology. They believe in working in an atmosphere which supports the highest integrity with empowered collaboration, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and offering a safe atmosphere for their staff to work in. Also, they have applied a lot of programs within the organization to be able to help articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any questions or comments, because they are glad to promote and share this policy with a greater knowledge of their efforts. They are very devoted to improving and preserving the environment. AxleTech has an EHS program which not just protects the natural environment but which also actively protects their staff and neighbors also.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles meant for both military and commercial applications. These applications vary from construction equipment to airport ground support. AxleTech specially designs axles in order to meet certain application demands. They have more than one thousand different axle specs in their existing offering. With more than one hundred years of history and skill, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The company is well known in many military and commercial applications. They provide complete axle assemblies for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details which could be found in the "ISAS" product selection.
